

14th June 2023

Art & Design and Technology & Design Exhibition

Tuesday 27th June 7.30pm-9pm

Dear Parent/Guardian,

Our pupils have a long and proud tradition of performing extremely well in their GCSE examinations. This is particularly true in the creative areas of Art & Design and Technology & Design. Each year I am hugely impressed by the creativity, originality, innovation, and talent displayed by our pupils in response to their controlled assessment tasks.

We would like to showcase that work to the wider school community; therefore, we are hosting a special exhibition, displaying the amazing work of our talented students.

You are warmly invited to attend, and welcome to bring friends and family members. The exhibition will be displayed in the Art suite, from **7.30pm-9pm** and light refreshments will be provided. This event coincides with our new P.E. kit sizing evening (3pm-5pm and 6pm-8pm), so why not come along and try on the sample kit and take in our exhibition on the same evening. Some of the artists and engineers will be present to talk about their work.

Parents of new Year 8 pupils (from September 2023) will also be attending an information evening that night (7.30pm) and are welcome to view the exhibition afterwards.

We look forward to welcoming you on the 27th of June and to showcasing the high-quality work on display from our pupils. Please find attached to this message a flyer for the evening, containing some of the work that will be on display.

Kind regards,
